Australian Owned, Australian Made And Proud Of It

THE X-SERIES SYSTEM - A WEATHER-TIGHT, ENERGY EFFICIENT, INSULATED WALL CLADDING SYSTEM.

INSPIRED DESIGN, QUALITY COMPONENTS

POLYURETHANE FOAM SEALANT:

100% flexibility ensures integrity and weatherproofing of joints.

X-SERIES PANELS:

M grade polystyrene, light weight, designed to move with the frame
(Thicknesses: 50/75/100/125mm R 1.7/2.3/2.9/3.6)

FIXINGS:

Pre-assembled 50mm button and class 3 screw sets provide the right fix for every situation.

ALLOY EXTERNAL CORNERS:

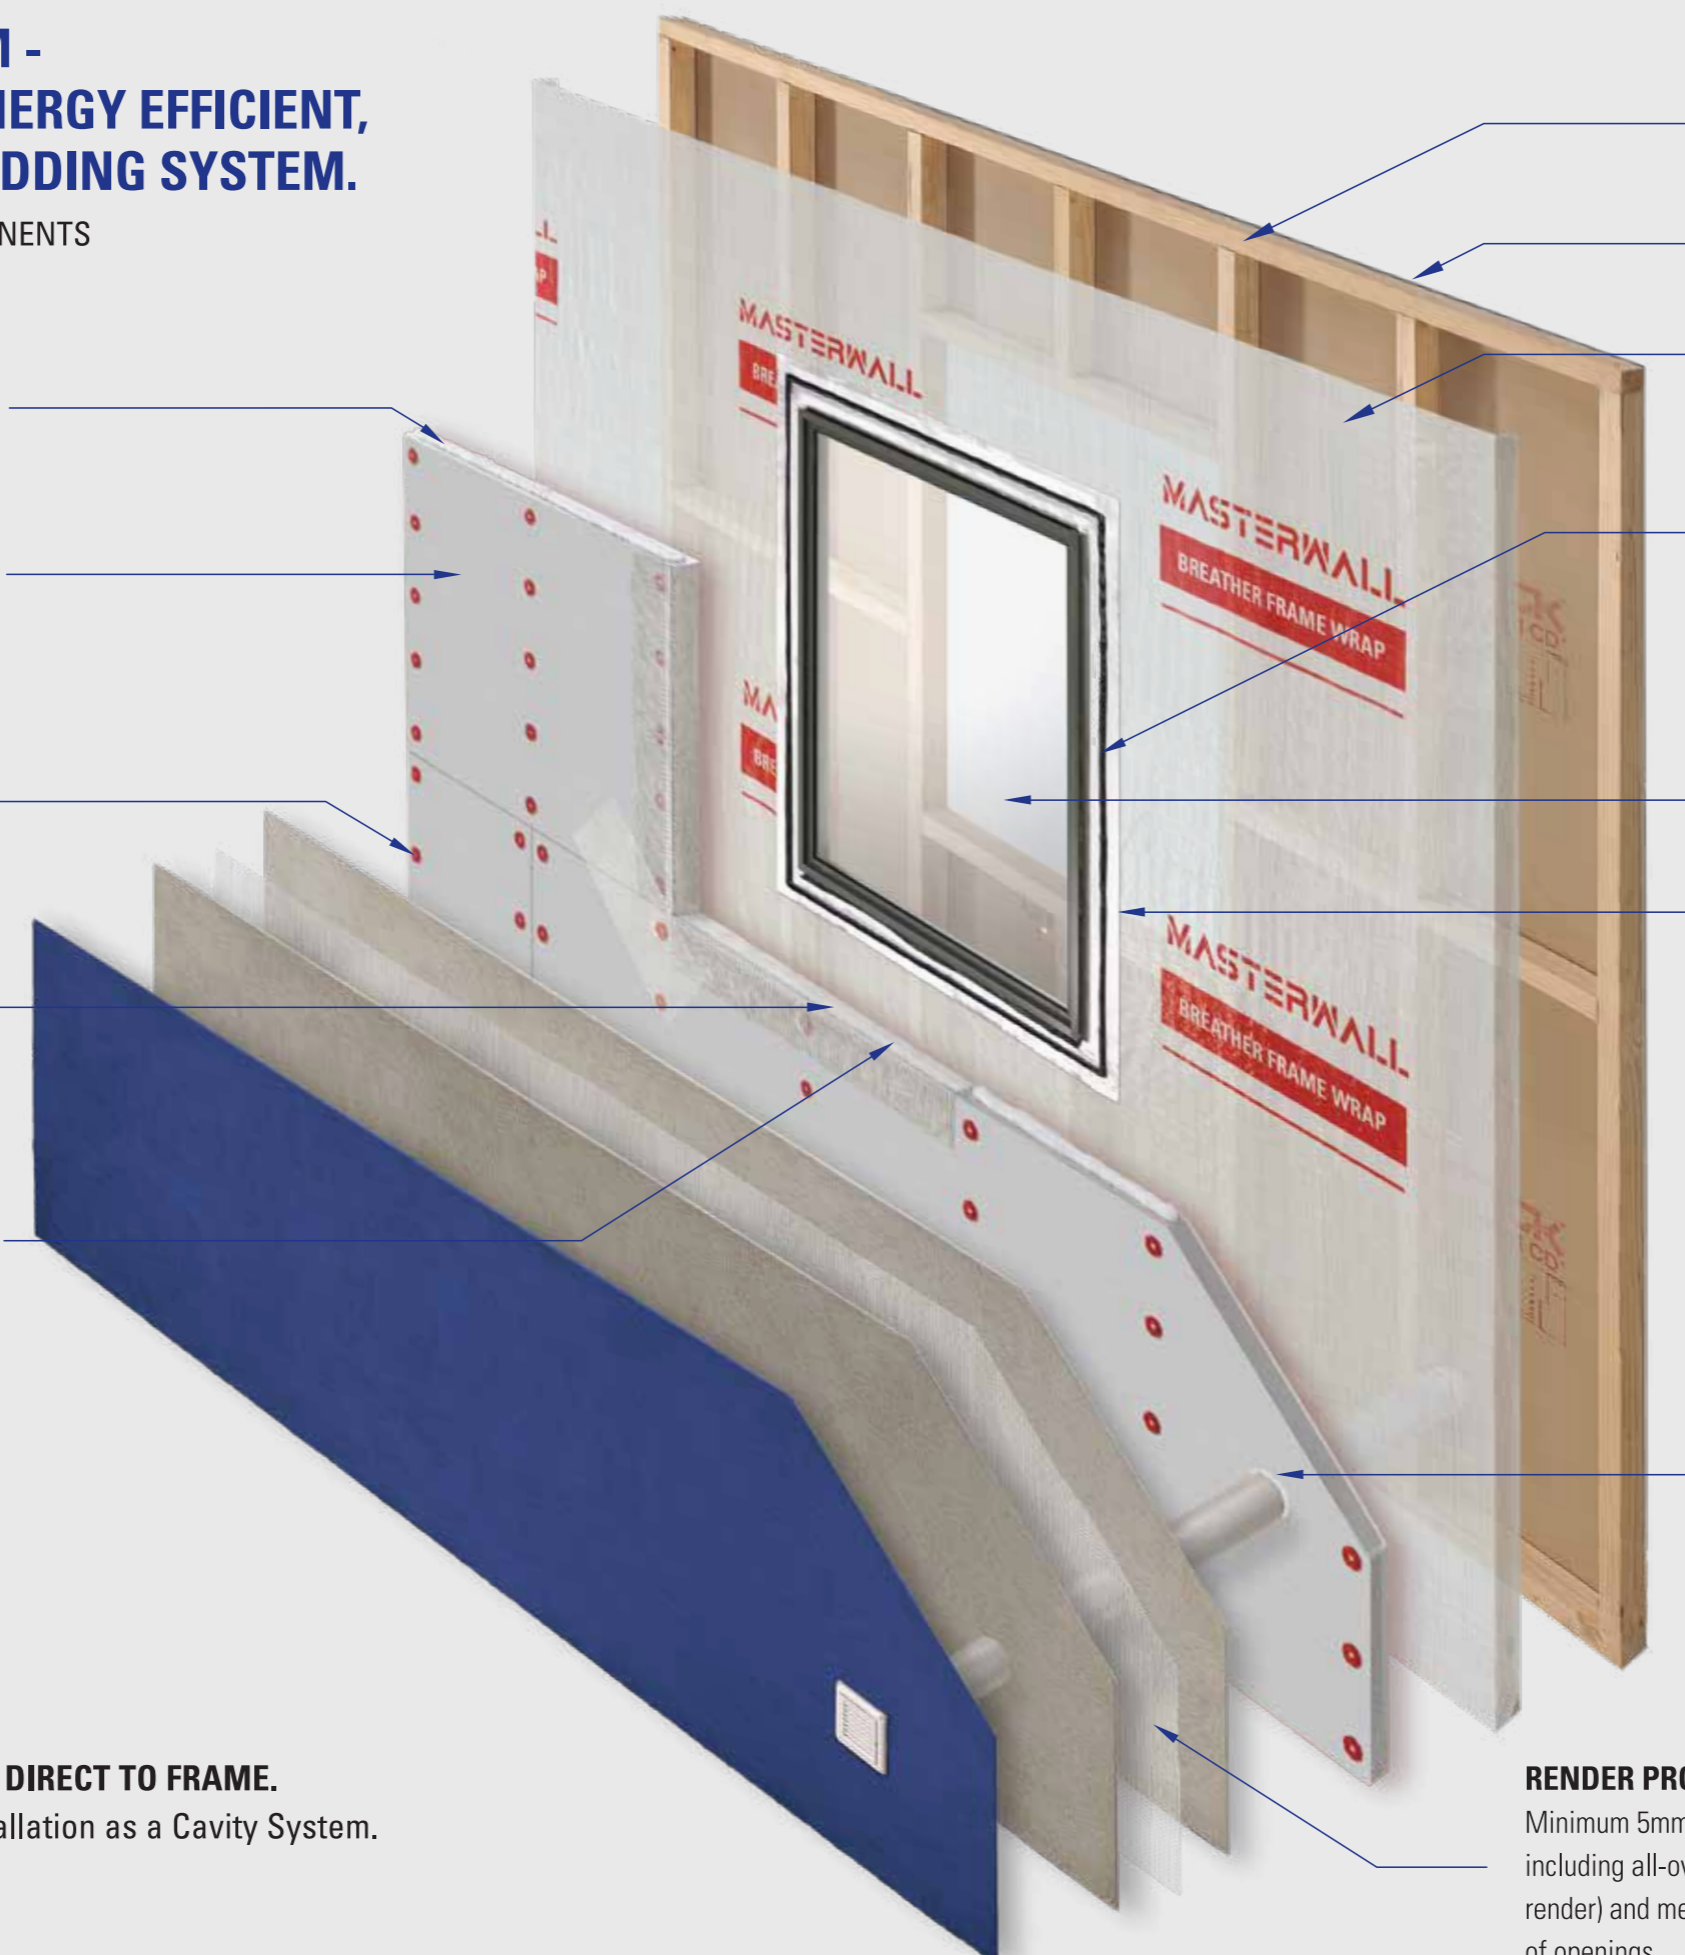

With integrated reinforcing mesh for strength.

NO NEED FOR POST FORM REVEALS:

No need to double frame to achieve brick like reveals.

NOTE: FRAMED CONSTRUCTION - DIRECT TO FRAME.

Also suitable for Batten-Fixed installation as a Cavity System.

TIMBER OR METAL STUD FRAME.

INTERNAL PLASTERBOARD LINING.

MASTERWALL BREATHER WRAP:

A superior translucent breather type paper which provides a high performance vapor control.

PREMIUM QUALITY MODIFIED LIQUID SEALANT:

Creates a gasket seal between back of panel and the flashing tape.

ALUMINIUM OR TIMBER WINDOW.

MASTERWALL SELF ADHERING FLASHING TAPE:

A high performance flashing system uniquely formulated for MasterWall.

POLYURETHANE FOAM SEALANT:

All cavities around penetrations filled with polyurethane sealant.

RENDER PROCESS:

Minimum 5mm approved polymer modified render system including all-over fiberglass mesh (embedded into first layer of render) and mesh jointing tape to all panels and 45° to all corners of openings.
