

MASTERWALL

M-TEX

**Premium renders, textures, colours
and coatings.**

ABOUT M-TEX

M-TEX is a range of modified exterior render and texture systems delivering the same premium quality and long lasting value you expect from Masterwall. Made in Australia and developed to perform in the harsh Australian climate, the M-TEX range of stunning textures and finishes beautifully transform any home.

THE SYSTEM

Our premium quality exterior coating systems, offer a range of fashionable finishes with industry leading performance and durability characteristics.

The M-TEX range includes complete systems for a wide range of walling substrates. Whether coating traditional brick, concrete, fibre cement, foam or lightweight concrete (AAC), M-TEX has a system to suit.

Masterwall also supply a wide range of walling panels, fixings, tools and accessories including masking and jointing tapes, plastic and metal beads, brushes, rollers, trowels, floats and drop sheets. Perfect for application of the full range of M-TEX products.

PRIMERS

Priming is the 'Key' to a great finish.

Good surface preparation is the foundation of coating performance and system durability.

Cutting corners can be disastrous; prepare well and enjoy the benefits for years to come with our range of M-TEX primers.

Rendercoat Primer

Waterbased emulsion primer designed to seal and consolidate the porosity on rendered and masonry substrates. Reduces absorbtion for more effectively controlled texture application and is alkali resistant to help block efflorescence.

Gripcoat Masonry Primer

A multi purpose emulsion primer with the addition of a fine grit for smooth surfaces allowing the consistant spread of subsequent texture coat.

Masonry Primer Concentrate

A masonry primer concentrate that once diluted is highly penetrative for both dense and porous substrates. Alkali resistance and resistant to efflourescence.

BASECOATS

Masterwall Australia offer a range of high build and skim coat renders incorporating flexible polymers and additives to enhance performance and application.

Simple, easy to use 1 bag solutions - just add water.

Add cement to our Coarse Patch for recessed joints and beads and skim the surface with our Fine or Coarse Patch for a perfect consistent finish.

	PRO RENDER Premium cementitious polymer modified render for EPS and low pervious substrates.
	GP RENDER Modified general purpose masonry render.
	GP CREAM Modified general purpose masonry render with a creamy consistency.
	HIGH BUILD Lightweight render interspersed with EPS for high-build applicatons.
	DRY TEXTURE Cementitious bag render coat floated to an even texture finish.
	FIBRE REINFORCED Microfibre reinforced cementitious base coat render for AAC.
	FAST RENDER Modified solid plaster style render for masonry.

TEXTURE CHOICES

A superb range of quality Texture finishes is available.

The only limit is your imagination!

Whether you prefer our premium Marble finish, the rugged charm of the Platinum range or the sparkle effect of our Sapphire texture coatings, we have the perfect texture for you.

M-TEX's durable and convenient range of Roll-On, Trowel-On and Scratch Textures provides choices and finishes for all applications. All M-TEX texture coatings can be tinted in a massive range.
